Internal Integration

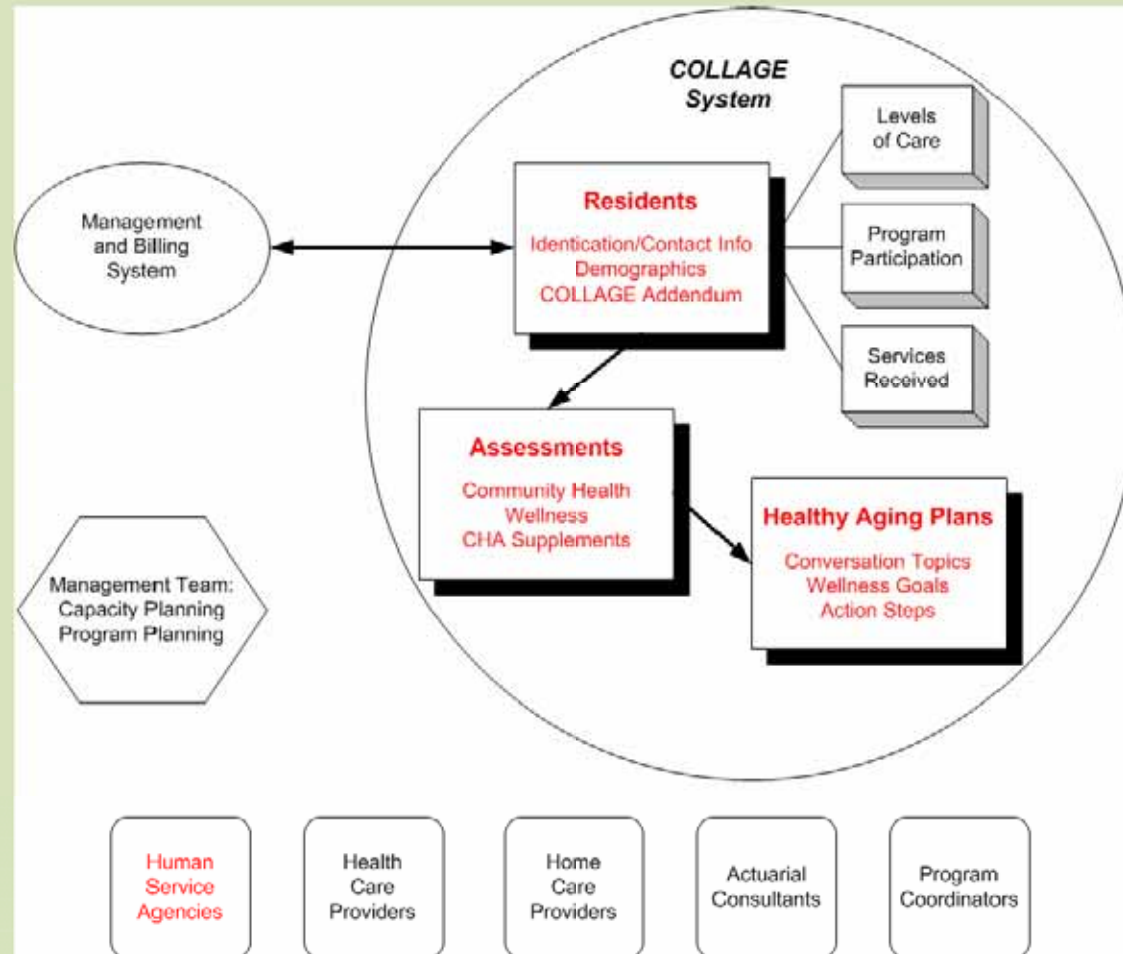

External Integration

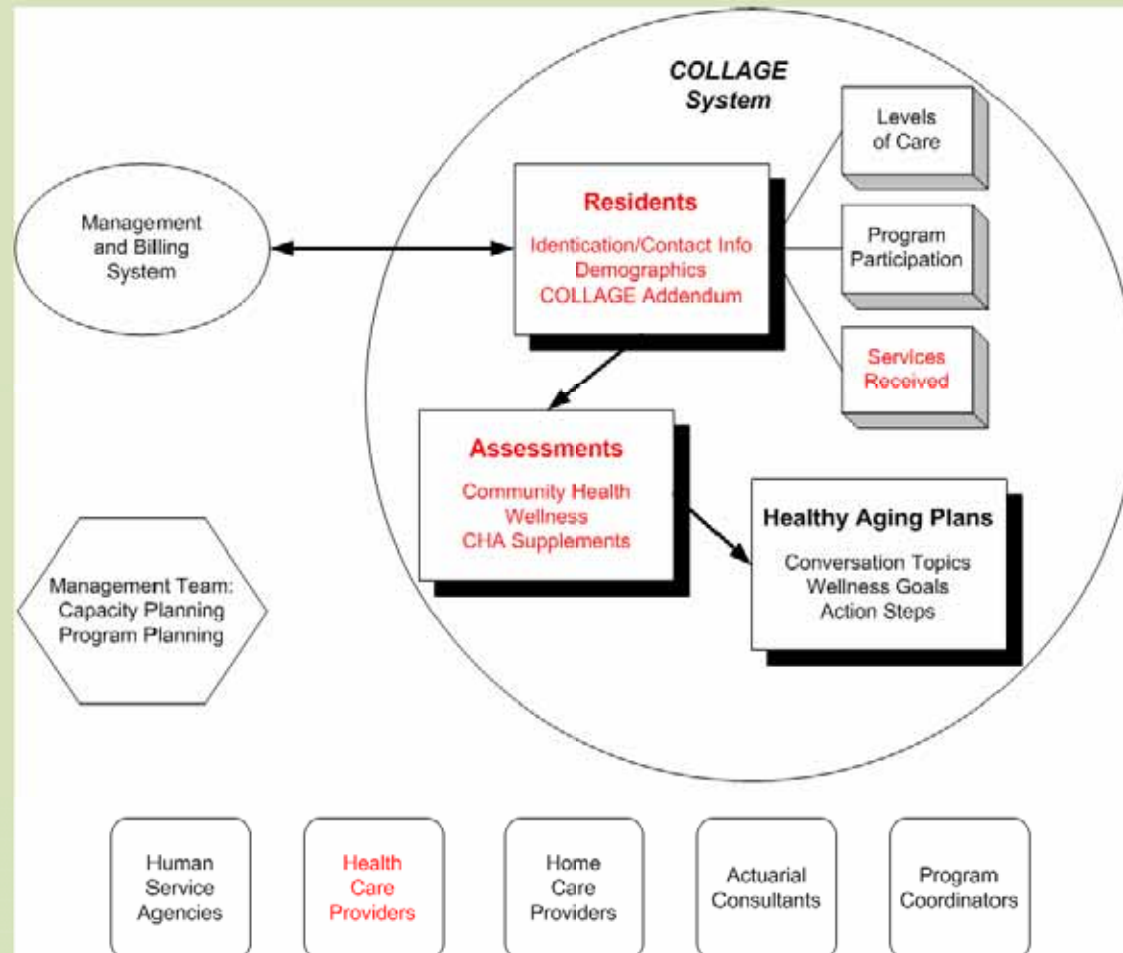

Integrated Management/Planning

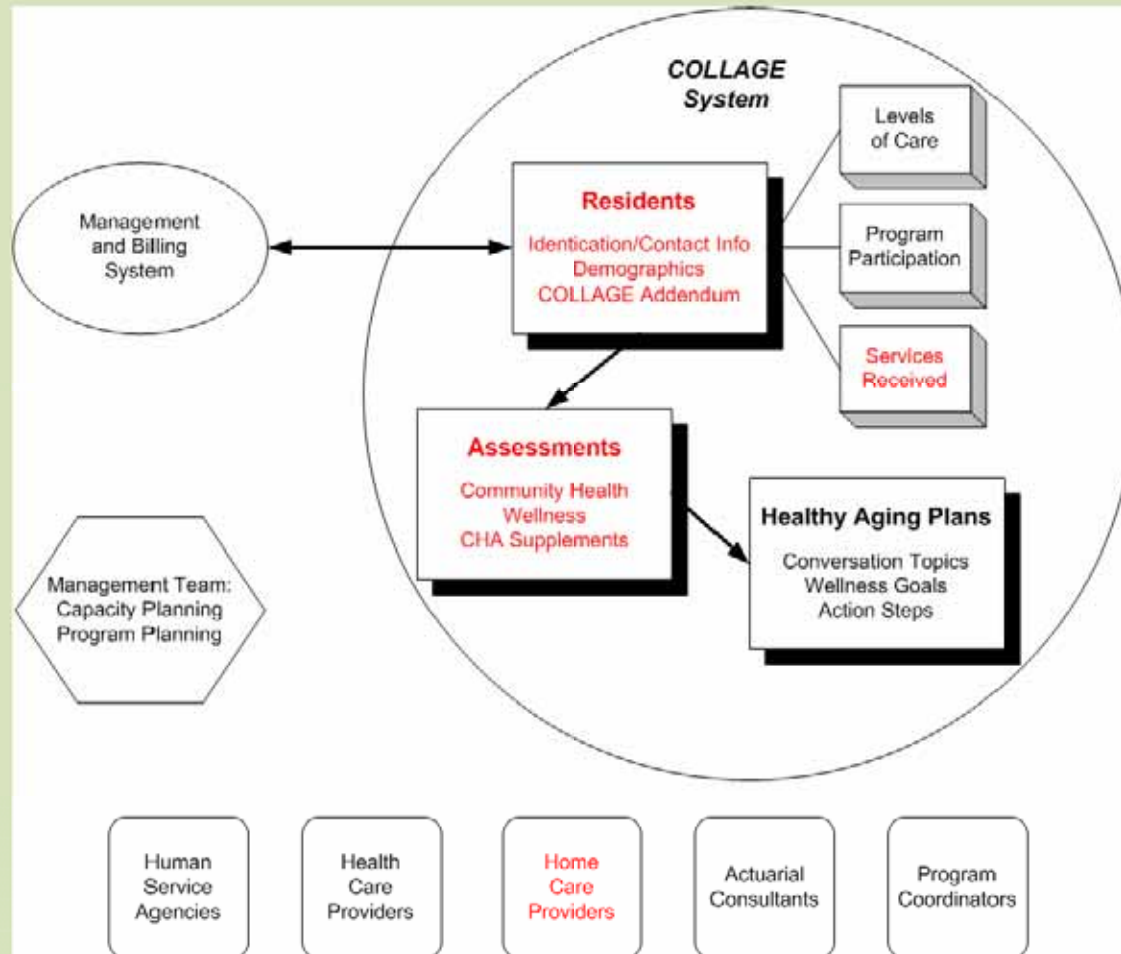

Integration w/ Human Services

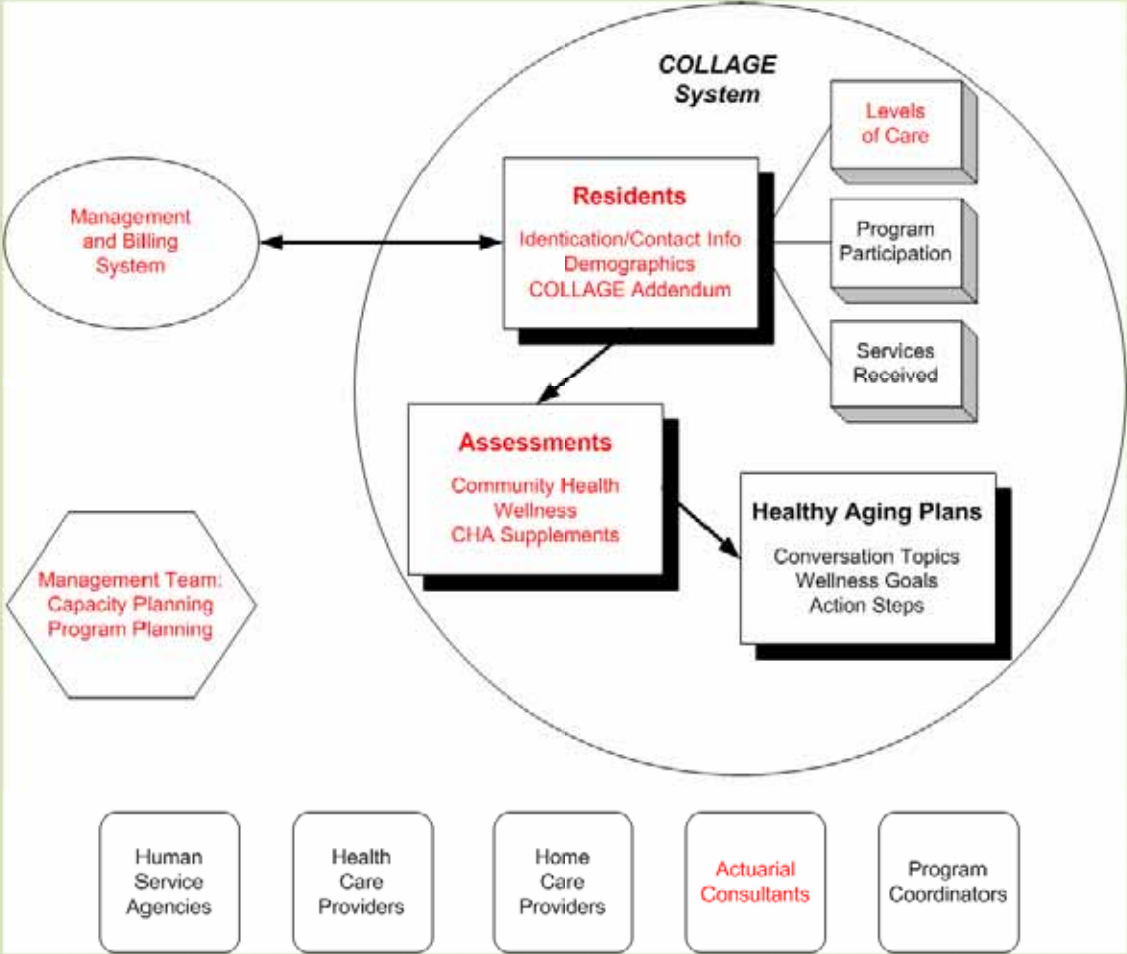

Integration w/ Health Care

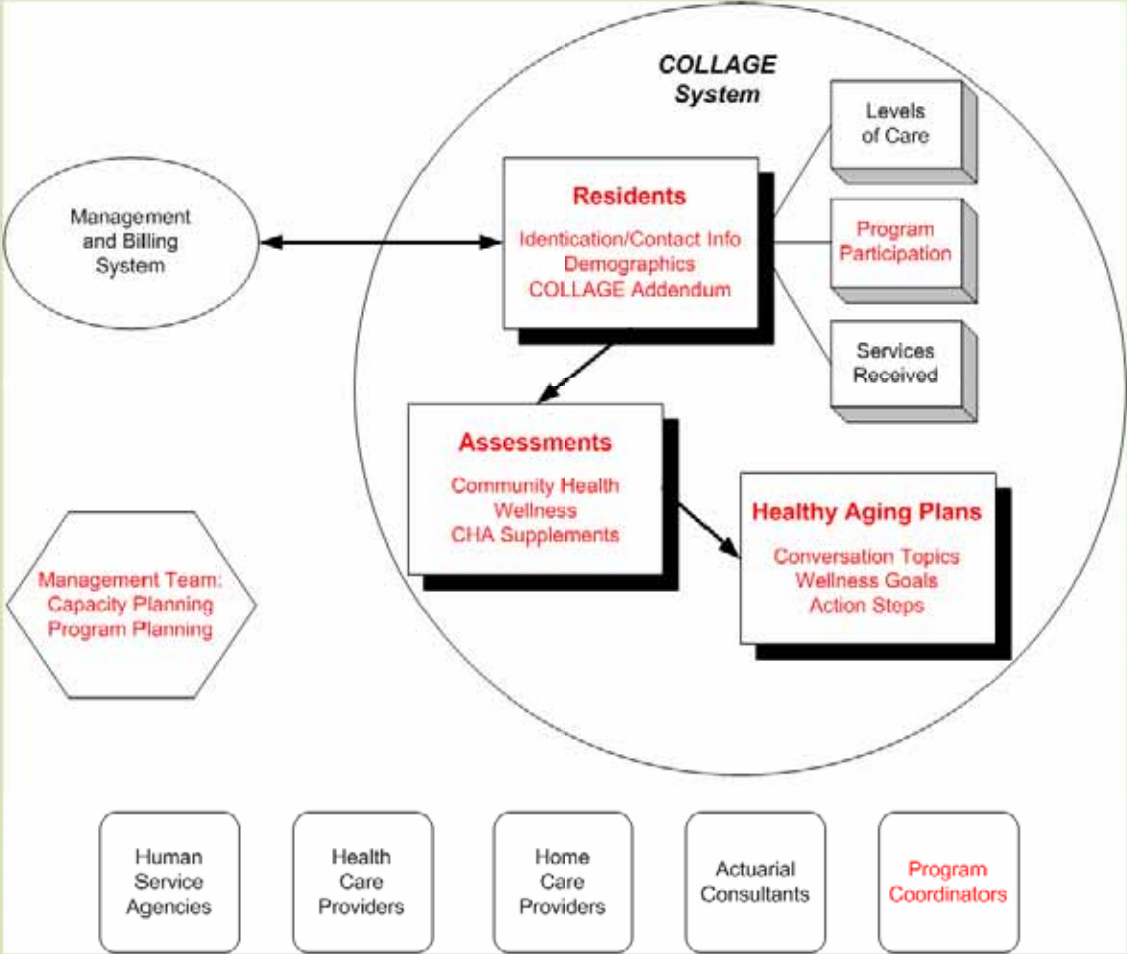

Integration w/ Home Care

Integration w/ Actuarial Consultants

Integration w/ Program Coordinators

COLLAGE is not an island

- External data can **imported** into COLLAGE
- COLLAGE data can **exported** to external systems
- Selected COLLAGE data can be **shared** with collaborators, care partners, and business associates
- Data integration can take **many forms**: from sharing paper-based outputs to real time electronic data exchanges
