Health and Wellness is What Everyone Wants

Your prospective residents move to your community because they expect you to help them remain independent for the rest of their lives

Keeping People Independent

- Meets your mission
- Improves satisfaction of residents
- Reduces turnover of units
- Allows community admissions to assisted living and health care
- Reduces costs for life care community through reduced utilization

What Can We Provide To Facilitate Health and Independence?

- Holistic evidence-based assessment (COLLAGE)
- Knowledge and tools to remain well and stop or slow chronic disease
- Data-driven programs and services to enhance quality of life

Components of an Effective Program

A holistic approach to care coordination services is finding the right balance of support between monitoring the seniors health care needs through ongoing contact.

To develop a simple plan of care that is understandable and agreed upon with the goal of 100% compliance.

Wellness Program Developments

Physical	Emotional	Intellectual	Social	Vocational	Spiritual
Living Well With A Chronic Condition Class	Joy Of Living Class	Covered Bridge Class	Low Vision Book Club	Volunteers	"How Satisfied Are you With your Life"

How COLLAGE Assisted

- Provides holistic evidence-based wellness assessment
- Supports philosophy of promoting independence
- Provides opportunity for benchmarking via comparative data
- Assists in development of resident need priorities

Occupancy Data: Health Care and Assisted Living

	Projected	Projected	Actual	Actual
	SNF	A/L	SNF	A/L
2007	53	53	30	18
2008	53	53	29	19
2009	53	53	27	18
2010	54	52	19	30
2011	54	52	16	30
